

Casa rural San Antonio

The house is located in the neighborhood of La Villa, from the Muslim-medieval era and declared a historical-artistic complex.

It was the original urban center of Priego de Córdoba. Of spectacular beauty with its narrow and winding streets, its white houses full of flowers, the sound of the water,

And in the heart of this neighborhood we find La Casa de San Antonio, in a secluded square, of its same name.

Plaza de San Antonio, 5 - 14800 - Priego de Córdoba
