

## Baroque's Route in Cordoba

The south of Cordoba became a milestone for the knowledge of the baroque art. Lucena, Priego and Cabra are fundamental places for the development of this route.

The baroque of Cordoba reaches its maximum expression in the imposing San Mateo Tabernacle, in the church of the same name. Lucena's baroque is completed with the visit of Palace of Condes de Santa Ana, Church of San Juan Bautista, Church of San Martín and Sanctuary de la Virgen de Araceli. The air of retreat and spirituality is breathed in the beautiful cloister of the church of the Franciscans or Church of Madre de Dios.
