

Giant Chair

The chair, exact replica of a real and commercial model, is made of solid laminated pine wood with 27 meters of height equivalent to a building of 9 floors. It houses a meeting room and can be accessed from inside stairs or from a lift located at the back side, a few meters away, which communicates with a walkway that gives access to the seat. The chair is located in the company Muebles Hermanos Huertas S.L, in the old road Córdoba-Málaga N-331, km. 79
